<b>GRI 401: EMPLOYMENT 2016</b>		
	401-1 New employee hires and employee turnover	S1-6, p. 163,  In 2025, 964 people joined Inditex. Out of the total number of registered hires, 74% are women, 25% men, 0.02% non-binary people and 1% people with other/unspecified gender. By age, 87% are people under 30 years old, 13% 30 to 50 years old and 1% over 50 years old. The majority of these hires are from Europe - excluding Spain-, with 43%; followed by Spain with 38%; the Americas with 10%; and Asia and rest of the world with 9%. In 2025, of the total voluntary/non-voluntary departures, 74% are women, 25% men, 0.02% non-binary people and 1.1% people with other/unspecified gender. By age, 84% are people under 30 years old, 15% 30 to 50 years old and 1% over 50 years old. The majority of these departures are from Europe (excluding Spain), with 42%; followed by Spain with 39%; Asia and rest of the world with 10%; and the Americas with 9%. Turnover is influenced by the nature of the retail sector, with a marked seasonality. The existence of peaks in activity that require reinforcement of teams with temporary contracts especially impacts non-voluntary turnover, since it includes departures due to the end of the contract of this collective.
	401-2 Benefits provided to full-time employees that are not provided to temporary or part-time employees	The Group offers comparable social benefits to employees on temporary and/or part-time contracts.
	401-3 Parental leave	S1-15, p. 169  In 2025, 7,405 people have returned to work after their leave (6,461 women and 944 men). The rate of return to work is 95% (94% for women and 98% for men). In turn, 6,076 people are still working for the Group 12 months after returning from leave (5,238 women and 838 men). Thus, the corresponding retention rate is 82% (81% for women and 89% for men).
<b>GRI 402: LABOR/MANAGEMENT RELATIONS 2016</b>

	404-3 Percentage of employees receiving regular performance and career development reviews	All of our people's performance is evaluated at least once a year and each brand conducts that process in keeping with its management model. Performance dialogue with store staff is continuous and centres around each person's contribution to store-specific objectives with a focus on career development, in line with one of our hallmark characteristics: internal promotion. In the case of office staff, target delivery and performance are reviewed with each person at least once a year, and objectives are set for the following year.
